BIOINFORMATICS

OFFLINE

OBJECTIVES OF TRAINING

- Training in Practicals to students who enrol with us.
- Complete Project Report Assistance.
- Hands-on Practicals Experience
- Academic Reviews Assistance
- Project Presentation Assistance
- Work on your PHD thesis in govt certified lab under the guidance of (Sr. Scientist)
- Complete your college internships under personal assistance and guidance by teachnook and sangene
- Customise the projects according to you

DIFFERENT PROJECT CURRENTLY UNDER REASEARCH IN INDIA

- Biotechnology Information System Network (BTISNet)
- Indo-Japan DAICENTER Programme
- North Western Himalayan Bioinformatics Grid

PROJECTS

- **Anti-Cancer Drug Efficacy Prediction**
- **Autism Mutation Detection**
- **Personalised Cancer Medication**
- **Human Disease Genetic Basis Identification**
- **Build a DNA Sequence Classifier**
- **We offer students the facility to carry out dissertation and Project works in various disciplines.**
- **Which not only fulfils their curriculum requirement but also help in their career growth and future research prospects and publication of their work.**

SPECIALIZATION

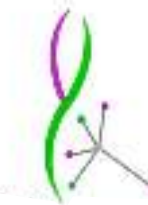

- **Genomic Data Science and Clustering**
- **Finding Mutations in DNA and Proteins**
- **Molecular Evolution**
- **Genome Sequencing**
